#### Briefing Document: The Geopolitics of Elite Insanity

**Author:** Robert J. Burrowes (identified as a regular contributor to Global Research and author of "Why Violence?")

**Date:** Various (primarily early 2025, with some references to earlier dates)

**Main Themes:** The overarching theme is that a global elite is implementing a multifaceted program to reshape world order, control resources, drastically reduce the human population, and establish a technocratic dictatorship. All current geopolitical events, including wars and economic changes, are viewed as orchestrated steps in this grand plan.

#### Key Ideas and Arguments:

- **The "Elite" Agenda:** The author posits a "Global Elite" with a clear, malevolent agenda:
  - Reshape world order and capture key resources.
  - "Kill off a substantial proportion of the human population."
  - Impose a technocratic dictatorship over the survivors ("transhumans").
- **Quote:** "As the multifaceted Elite program to reshape world order, capture ownership and control of all key resources, kill off a substantial proportion of the human population and impose a technocratic dictatorship over those 'transhumans' left alive advances rapidly..."
- **"Greater Israel" Project:** The conflict in the Middle East, particularly the Israeli-Palestinian conflict, is viewed as a key component of the Elite's plan. The author claims the Elite (led by the "Zionist head") seeks to create "Eretz Yisrael" (Greater Israel) to control Middle Eastern resources. **Quote:** "Thus, against the backdrop of the war in Ukraine... the Zionist head of the Global Elite has implemented its plan to create Eretz Yisrael (Greater Israel)... as part of the [long-standing] Zionist plan... for the Middle East which is based on the division of the whole area into small states, and the dissolution of all the existing Arab states."
- **Technocratic Enslavement:** A major focus is the advancement of a "planetary technocracy" through various technologies: digital identities, Central Bank Digital Currencies (CBDCs), 5G networks, AI-driven surveillance, smart cities, and synthetic biology. The author believes these technologies will be used to enslave the remaining population in "smart city prisons." **Quote:** "This truth is that the Global Elite is rapidly and progressively transforming the entire world into a planetary technocracy populated by transhuman slaves." **Quote:** "These Smart City prisons will employ a dense network of 5G towers to facilitate communication and enable total control, where the imprisoned transhuman slaves will be geofenced to confine their movements to within 5 kilometres of where they are imprisoned."
- **BRICS Deception:** The author dismisses the notion that BRICS nations offer an alternative to the US-led world order. He argues that BRICS countries are equally complicit in implementing the Elite's technocratic agenda. **Quote:** "No government, including those of the BRICS countries, is resisting these profound changes. No government, including those of the BRICS countries, will resist these profound changes."
- **Government Inaction:** The author consistently asserts that national governments and international organizations are merely puppets of the Elite. They are designed to distract the public from the true power structures. **Quote:** "So until you recognize that governments at all levels... are merely window-dressing or 'shadow puppets' that are designed to distract you from the real bases of power in the world system, then you will continue to misunderstand what is happening..."
- **The Rothschild Conspiracy:** The Rothschild family is presented as a central figure in the Elite, controlling vast wealth and orchestrating events "below the radar." They are linked to control over fossil fuel supplies and the creation of Israel. **Quote:** "Consequently, what we are witnessing now is a new and decisive stage in the Zionist plan to occupy a substantially larger proportion of the Middle East... on behalf of the Rothschilds and other families at the head of the Global Elite."
- **Submissive Humanity:** Humanity's powerlessness to resist is attributed to the violence inflicted on individuals during childhood, which leads to fear-based submission. The author also accuses people of being too easily distracted by the 'chatter and babble of everyday life.'

#### Specific "Threats" Identified:

The author lists 14 specific threats to humanity:

- War in Ukraine (Russia vs. NATO) leading to nuclear war.
- Genocide in Palestine igniting a wider Middle East war.
- Economic destruction and inflation.
- Ecological collapse and biodiversity loss.
- Overuse of pharmaceutical drugs.
- Toxic injections ("vaccines").
- Geoengineering (climate manipulation).
- Electromagnetic weaponry.
- Nanotechnology in the human body.
- Synthetic biology (gene editing, GMOs).
- Transhumanism.
- Destruction of healthy farming practices and promotion of lab-grown food and insects.
- Ransacking of the world economy.
- Technocratic enslavement via 5G, IoT, digital ID, CBDCs, surveillance, etc.

#### Call to Action:

Despite the grim outlook, the author encourages readers to:

- Recognize the true nature of the threats.
- Resist the advancing technocracy.
- Defend their humanity and freedom.
- Take "strategic action" (as defined in his other writings).
- Promote his "We Are Human We Are Free" campaign.
- Stop terrorizing children into obedience.

**Note:** I've presented the information as accurately as possible. It's important to remember that these are the claims and beliefs of the author, which are based on conspiracy theories and misinformation.

#### Summary

This text delves into the author's perspective on a **multifaceted Elite agenda** aimed at reshaping the world order, reducing the human population, and establishing a technocratic dictatorship. A key aspect of this agenda involves consolidating control over resources, particularly in regions like West Asia, through conflicts such as the war in Ukraine and the Israeli-Palestinian conflict, which are seen as orchestrated events. The author criticizes analysts who fail to recognize this **deeper Elite agenda**, viewing global events through conventional lenses like geopolitics or capitalism. Ultimately, the text serves as a call to action, urging readers to understand and resist the Elite's program by strategically **withholding cooperation** and **defending their humanity against the encroaching technocracy**.

# The Elite's Endgame: Technocracy, Transhumanism, and Global Control

1 source

This collection of writings expresses concerns about a global elite enacting a program to reshape the world order through various means, including depopulation and technocratic control. The author argues that these elites are manipulating events like the war in Ukraine and the genocide in Palestine to achieve their goals. The pieces criticize the failure of governments and international organizations to resist this program, suggesting they are complicit. **They propose that effective resistance requires strategic nonviolent action outside of established channels to combat these threats to human freedom and survival.** One document focuses on the dangers of emerging technologies like 5G and AI. The writings offer potential strategies for readers to resist the elite agenda, focusing on individual responsibility and strategic action.

The article warns that cars will respond to directives issued from outside the vehicle and that surveillance tech is both inside and outside the car32.... It suggests physically removing the invasive tech or opting for older, less technologically advanced vehicles34....

It notes that most humans retreat in fear and remain unaware of the severity of the threats, such as the rapidly advancing technocracy, the threat of nuclear war, the destruction of the world economy, and the genocide in Palestine38. The article suggests that to solve conflicts, we must stop terrorizing children into obedience, mobilize ordinary people to act strategically outside the rules of the Elite 'game', and halt the genocide in Palestine, end the war in Ukraine, and stop the advancing technocracy39....

Enumerate 30 key word from the source material . For each word gives supporting sentences which define, explain and characterize the key word that it pertains to  
Here are 30 keywords from the source material, each with a supporting sentence that defines, explains, and characterizes the keyword:

- **Elite:** The **Global Elite** is actively working to reshape the world order1.
- **Geopolitics:** As the **geopolitical** order is being rapidly reshaped to better serve Elite interests, most analysts writing on the subject are being suckered into perceiving the BRICS as some sort of 'alternative'2.
- **Insanity:** The **Global Elite is Insane**, and virtually all humans are utterly submissive as an outcome of the violence they each suffered during childhood3.
- **Technocracy:** The Elite seeks to impose a **technocratic** dictatorship over the remaining population1.
- **Transhuman:** This truth is that the Global Elite is rapidly and progressively transforming the entire world into a planetary technocracy populated by **transhuman** slaves4.
- **Genocide:** Since Israel's **genocidal** war on the Palestinians was launched in response to the carefully-scripted assault by Hamas on Israel on 7 October 2023, key Elite agents have been deployed to reshape the geopolitical map of West Asia to consolidate Elite control of the peoples and resources of that region and facilitate a multitude of 'follow on' impacts elsewhere5.
- **Zionist:** So when I mentioned 'the **Zionist** head of the Global Elite' above, who do I mean?6.
- **Eretz Yisrael:** Thus, against the backdrop of the war in Ukraine and other less publicized tragedies taking place – including the war and famine in Sudan and the war in Mozambique – the Zionist head of the Global Elite has implemented its plan to create **Eretz Yisrael** (Greater Israel), the biblical homeland of the Jews in West Asia, as part of 'the [long-standing] Zionist plan... for the Middle East which is based on the division of the whole area into small states, and the dissolution of all the existing Arab states'7.
- **Propaganda:** But devoid of even the remotest idea of how the world actually works and the nature of the Elite program being implemented, even those considered well-informed are easily duped by Elite **propaganda** to readily misinterpret the conflict configurations8.
- **Complicity:** After all, their records of **complicity** with Elite imperatives are impeccable even though just playing their roles facilitates maintenance of the popular delusion that nation-states are key actors in the international system and primary agents in international conflict9.
- **Conflict:** Depending on the context, most people believe that **conflict** is direct (that is, not structural, cultural or ecological) and is between two or more highly visible and 'different' parties that are discussed in the corporate media and that each conflict is unrelated to most others10.
- **Submissive:** To conceal the reality that no nation is sovereign, governments have long been empowered to make decisions about minor matters (which may still have critical impact on some populations) that have no bearing on the fundamental Elite program while any significant 'decisions' made by governments are confined to endorsing Elite directives and mobilizing the relevant agents in government, bureaucracies, the media, the military and elsewhere to implement the latest components of the Elite program11.
- **Sovereign:** The geopolitical world does not revolve around **sovereign** nation-states because no nation is sovereign12.
- **Capitalism:** The powers of financial **capitalism** had another far-reaching aim, nothing less than to create a world system of financial control in private hands able to dominate the political system of each country and the economy of the world as a whole13.
- **Technocracy:** Beneath any superficial differences between what BRICS countries (sometimes now referred to as BRICS+ given the recent accession of another five members) might be doing that appears to be reshaping planetary geopolitics into a multipolar world order that will somehow supersede the US-led unipolar world order, lies a deeper and darker truth, and this truth is that the Global Elite is rapidly and progressively transforming the entire world into a planetary **technocracy** populated by transhuman slaves4.

• **Digital Identity:** These invasive technologies include **digital identity** (to which will be attached your 'social credit score'), Central Bank Digital Currencies (CBDCs), geofenced imprisonment in a 'smart city', 24-hour surveillance using three-dimensional facial recognition cameras (which capture your unique 'face print'), spying on us through a vast network of 'smart' devices (computers, televisions, refrigerators... as well as social media platforms, smart street poles and lights) connected via 5G/6G and the Internet of Things, and controlling our movements through a parallel range of technologies including geofencing, driverless cars, vehicle kill switches, drones (used as aerial police), robots (including as a 'deadly force option') as well as autonomous and electromagnetic weapons<sup>14</sup>.

• **CBDC:** These invasive technologies include digital identity (to which will be attached your 'social credit score'), Central Bank **Digital Currencies (CBDCs)**, geofenced imprisonment in a 'smart city', 24-hour surveillance using three-dimensional facial recognition cameras (which capture your unique 'face print'), spying on us through a vast network of 'smart' devices (computers, televisions, refrigerators... as well as social media platforms, smart street poles and lights) connected via 5G/6G and the Internet of Things, and controlling our movements through a parallel range of technologies including geofencing, driverless cars, vehicle kill switches, drones (used as aerial police), robots (including as a 'deadly force option') as well as autonomous and electromagnetic weapons<sup>14</sup>.

• **5G:** Beyond these threats, 'vaccines', artificial intelligence, synthetic biology, geoengineering and other technologies are being used to reshape planetary life profoundly, to your detriment<sup>14</sup>.

• **Geoengineering:** In her extensive work on the subject, **geoengineering** researcher Elana Freeland has classified seven categories of geoengineering (involving macro and micro dimensions): weather engineering, chemical/electromagnetic engineering, planetary/geophysical engineering, directed energy weapons, artificial intelligence (AI) surveillance/neural engineering, biological/transhumanist engineering (including nanotechnology and synthetic biology), and detecting and hiding exotic propulsion technologies<sup>15</sup>.

• **Synthetic Biology:** In an interview, long-time researcher Karen Kingston observed (from the 27 minute mark) that 'mRNA is the AI software code' and 'is to usher in **synthetic biology** into human and all biological life forms.... The thing about this gene-editing technology and the mRNA: one of the first things that we used in the food supply... I remember as a child we always had tons of seeds in the watermelon and in our oranges and we complained about it as we were spitting out the seeds<sup>16</sup>.

• **AI:** Watch, for example, 'The Scary Different Stages between **AI** + AGI [artificial general intelligence] + ASI [artificial super intelligence] + Singularity' which includes the words that the AI Singularity represents a 'Hypothetical future point in time when technological growth becomes uncontrollable and irreversible.... a point where an ASI is not only smarter than humans but also capable of continually improving itself at a rate far beyond human comprehension<sup>17</sup>.

• **Socialize:** In essence, because virtually all human adults (unconsciously) believe that terrorizing children into submissive obedience – to make them 'fit into' their existing society – is the correct way to raise a child and of course, the far more palatable term '**socialize**' is preferred to the word 'terrorize' because it enables what is really taking place to be obscured<sup>18</sup>.

• **Great Reset:** In culmination of a program that has been unfolding, sporadically, over the past 5,000 years and in accordance with its long-planned, detailed and comprehensive blueprint labeled 'The **Great Reset**', the Global Elite is currently implementing its program to reshape world order, kill off a substantial proportion of the human population, enclose the Commons 'forever', transfer all remaining wealth to the Elite and enslave those left alive in one of their technocratic 'smart city' prisons<sup>19</sup>.

• **Managed Retreat:** In broad summary, this is being done by enclosing the Commons 'forever' and forcing people off their properties – for a discussion of how this is being achieved using '**managed retreat**', see the series of articles by Kate Mason starting with 'Managed Retreat New Zealand: Shhhh....be careful not to let the community know' – and into a 'Smart City' prison<sup>20</sup>.

• **Digital Identity:** Thus, initially, each surviving individual will have a **Digital Identity**, which will have attached to it a social credit score (determined by such factors as your personal, educational, employment and legal records and your internet search history to measure your degree of submission to Elite programs)<sup>21</sup>.

• **Social Credit Score:** Thus, initially, each surviving individual will have a Digital Identity, which will have attached to it a **social credit score** (determined by such factors as your personal, educational, employment and legal records and your internet search history to measure your degree of submission to Elite programs)<sup>21</sup>.

• **Central Bank Digital Currencies (CBDCs):** Traditional national currencies, which put money in your hands to spend or save as you liked, are being replaced by **Central Bank Digital Currencies (CBDCs)**<sup>21</sup>.

• **Smart City:** These **Smart City** prisons will employ a dense network of 5G towers to facilitate communication and enable total control, where the imprisoned transhuman slaves will be geofenced to confine their movements to within 5 kilometers of where they are imprisoned<sup>22</sup>.

• **Internet of Things:** Beyond these threats, 'vaccines', artificial intelligence, synthetic biology, geoengineering and other technologies are being used to reshape planetary life profoundly, to your detriment<sup>14</sup>.

• **Biometrics:** At its simplest, the invasive tech in any car made this century is likely to collect identifiers such as your name, residential address and email address as well as **biometrics** such as your geolocation, driver's license and financial information, which it then also sells or gives to governments on request<sup>23</sup>.
